Mahmoud from Syria

Eight-year-old Mahmoud and his family are from a rural village in Syria where they used to work in agriculture. They lived there until it was bombed. His Mother told the team how they had left their home fearing for their lives. Explaining that one night 14 shells landed around their home. She said she made the children put pillows over their heads. She laughed at her naivety, thinking the pillows would protect them.

Shelter Box's emergency shelter kit has alleviated some of these concerns. Delivered to the camp by Relief Aid, it included vital items to keep families safe: mosquito nets protect the children at night, solar lamps provide light and items like water containers and cooking sets mean families can be self-sufficient in their tents.

Mahmoud sleeps more easily now and dreams about his home. He told the team: "I hope the fighting ends, we go home, I see my friends and play with my white ball."

THE AID WE DELIVER

The ShelterBox solution in disaster response is as simple as it is effective. We deliver the essentials a family needs to survive in the immediate aftermath of a disaster. Each green ShelterBox is tailored to a disaster but typically contains a disaster relief tent for an extended family, blankets, water storage and purification equipment, cooking utensils, a stove, a basic tool kit, a children's activity pack and other vital items.

2020 Deployment Information

The global pandemic has made the past year difficult, particularly for disaster affected families around the world who have lost their homes and are unable to socially distance.

Despite the challenges posed by corona-virus, ShelterBox served 200,000 people (that's 40,000 families!) across 13 countries with emergency shelter and life-saving aid and hygiene
